LPR PRR Response

Per Patrol:

1. Motorola is providing the Demo software. I could not tell you the exact demo timeline, except to say that during budget discussions, they agreed to extend our demo until the start of the fiscal year. If it is approved, we will pay and begin a contract. If it is not approved, the demo will end. As previously stated in the initial records request, we have (28) Ford Explorers and (8) F150s with the LPR capabilities in demo. There are also 10 demo accounts for a LPR cell phone app, which provides the same LPR capabilities.
2. We do not have any past or current LPR policies. Deputies should refer to NCIC/ILETs for license plate information obtained from a LPR. ILETs Training is not an in-house record. That would have to be requested from ISP.
3. Quotes are attached. One is for the vehicle LPRs, the other is for the cell phone LPRs. **Note: The initial quote was for a five year contract for 40 total vehicles. As stated, we currently only have 36 vehicles with the capabilities. So the initial quote when broken down to 40 units for five years comes to around \$20,640 per year. The phone app quote was for one account, so if we committed to 10 it would be \$1,000 per year, with no five year contract required (or \$100 per unit times however many accounts we activated).
4. The contact information of our Motorola sales rep is included in the quotes.
